How to read the values. 12 of 18 items carry a value you confirmed (\$13,112). The remaining 6 carry a category estimate, marked **est.** in the tables below. Estimates are a floor to argue from, not a valuation — attach receipts or appraisals for anything you would contest.

This document was assembled by the property owner from their own photographs and records. Item values reflect replacement cost at the time of writing. Original photographs and receipts are retained alongside this report.
